OBJECTIVE

Recent IT graduate specializing in Web and Mobile Application Development, with hands-on experience in JavaScript, Kotlin, Python, software testing, and Git. Familiar with developing and testing applications, debugging issues, and working with cloud technologies. Eager to apply my technical skills, continue learning, and contribute to developing reliable and user-focused software.

SKILLS

Programming: Python, JavaScript, Java, Kotlin
Web/Mobile: HTML, CSS, JavaScript, React, Android
Database: MySQL, PostgreSQL, Firebase
Testing: Manual Testing, Functional Testing, Regression Testing, Test Cases
Version Control: Git, GitHub
Cloud/DevOps: AWS, Azure, Docker, Kubernetes
Tools: VS Code, Android Studio, Postman, Jira

WORK EXPERIENCE

Quality Assurance Intern | *Simplevia Technologies Inc.* **January 2026 - April 2026**

- Performed manual, functional, and regression testing of web applications.
- Created test cases and documented software defects with reproduction steps.
- Verified bug fixes and collaborated with the team using Git/GitHub.

Cloud Computing Intern | *Lamina Studios, LLC* **May 2026 - July 2026**

- Assisted with cloud infrastructure deployment using AWS and Terraform.
- Worked with Docker and Kubernetes in cloud infrastructure environments.
- Configured monitoring using Prometheus and Grafana and assisted with technical documentation.

EDUCATION

Bachelor of Science in Information Technology with Specialization in Web and Mobile Application **2022 - 2026**

FEU Institute of Technology — P. Paredes St., Sampaloc, Manila

PROJECTS

NUTRIWISE | Thesis Project

- Developed and tested a web/mobile nutrition and meal-planning application.
- Created test cases, performed functional testing, and documented software defects.

E-Commerce Website | HTML, CSS, JavaScript

- Developed the product browsing and cart functionality using HTML, CSS, and JavaScript.
- Implemented interactive elements and handled user input using JavaScript.

To-Do List Mobile Application | Kotlin

- Developed the task creation and management functionality using Kotlin.
- Implemented user interactions and basic data handling for managing tasks.

CERTIFICATIONS

- Information Technology Specialist in Cybersecurity (2025)
- PMI Project Management Ready® (2025)
- Information Technology Specialist in JavaScript (2024)
- Information Technology Specialist in Networking (2023)
